

# FLEXTERN LECTERN

A FLEXIBLE LECTERN AT THE RIGHT PRICE

The lectern can easily be height adjusted, is easy to move and supports wheel-chair users

Teletech is chosen as distributor of the Flextern Lectern which is especially developed for the modern meeting and conference.

**The lectern offers easy height adjustment, multiple AV-connections, LED light, color customization, etc.**

Finally people of all heights can stand straight when presenting - even very tall people do not have to bend when speaking into the microphone. The lectern is also easy to use and allows the presenter to focus on getting his message across.

It offers LED light for extra reading clarity, table for laptops, The Flextern<sup>TM</sup>-lift system for easy height adjustment, support for wheel-chair users and many AV-connections for your laptop etc.

You can even order your own fully customized lectern in many colors and with your own logo.

To order your lectern or for more information contact our Sales Department +45 44 92 98 00.
