

Large installation at Semcon in Gothenburg

40 new meeting rooms got AV equipment

In connection with the inauguration of Semco's new head office in Gothenburg, Teletech got the task of installing audiovisual equipment in 40 new meeting rooms.

Each meeting room was equipped with a fully digital presentation solution adapted to the room size and configured for automatic on / off to minimize the

need for operation and power.

The installation was extensive and consisted among others of

many flat screens in several sizes, tablet-controlling lighting systems and installation of many kilometers of cable.
