

Wireless microphone system for Bella Sky

Teletech was the first supplier for digital wireless microphone system from Sennheiser in Denmark

Teletech is proud to be the first supplier of the new microphone system Speech Line Digital Wireless from Sennheiser.

Shortly after the launch of Speech Line Digital Wireless Teletech sold the first microphone systems in Denmark.

Speech Line Digital Wireless is the world's first digital wireless speech targeted microphone system. The

system has Automatic Frequency Management, that automatically checks the available frequencies in the meeting room. This helps to optimize the project management phase, but also provides a simple setup and operation for the technicians.

Moreover, it is managed and controlled via tablet and computer. The system is available as handheld, lapel or headset.
